DETAILED ACTION

Status of Application, Amendments, And/Or Claims

Applicant's amendment of the claims submitted 1 November 2006 has been entered.

This application is in condition for allowance except for the presence of claims 6-17 directed to non-elected Inventions without traverse. Claims 6-17 have been cancelled. Authorization for this cancellation was given in a telephone interview with Attorney Nabeela McMillian on 25 January 2007.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The amendment to the claims was made to clarify the claimed invention. Applicant's amendment of the claims and argument submitted on 1 November 2006 overcame all remaining grounds of rejections.

Applicant has amended the claims to limit the isolated complex comprising a TGF- β binding protein (a first TGF- β binding protein) and a BMP antagonist protein (a second TGF- β binding protein) in specific association, wherein the TGF- β binding protein (the first TGF- β binding protein) comprises a sclerostin polypeptide, and the BMP antagonist protein (the second TGF- β binding protein) comprises a Chordin or a Noggin polypeptide, which is free of prior art. In addition, the specification has defined the term "specific association" as the formation of a complex between sclerostin and either chordin or noggin (pp. 54, line 21 to pp. 55, line 7).
